

January 14, 1976

we are going to keep costs down. I think that most of those members who serve are quite willing to contribute their time at the current level and I think that it will set the tone for what the session is going to be about, so, I recommend its adoption.

PRESIDENT: Senator Skarda.

SENATOR SKARDA: A question of Senator Warner. Senator Warner, do they get \$20 a day now plus expenses or just \$20 a day period? I don't know, I'm asking for information anybody that has it, I would be most grateful.

SENATOR WARNER: They receive mileage and their expenses away from home while attending to the business of the Commission.

PRESIDENT: Senator Hasebroock.

SENATOR HASEBROOCK: Just to the answer, I think it was given. The answer to that question is that they do get mileage and expenses. But, just in reply to Senator Warner, this bill came in last year and I think that it is a reasonable request. I think that many Commissions get more money than that and I think that this will just put them in reasonable line with many other commissions. I don't think that it would greatly increase the budget. I can understand his philosophy that it would increase it some, but I think that it is within reason. I would hope that you don't vote to indefinitely postpone.

PRESIDENT: Senator Maresh.

SENATOR MARESH: Mr. President, I oppose the kill motion. I think that these people have a tremendous job to do. They have to make a lot of determinations that are sometimes hard to do and I think that we should have qualified people serving, and I don't think that \$30 a day is out of line. I would oppose the kill motion.

PRESIDENT: Senator Mills.

SENATOR MILLS: Mr. President, I would like to ask a question of someone that could answer this. Last year there was a bill pending to raise the rate of payment for those people on the Investment Council, Senator Maresh has alluded to those qualified people and certainly those people on the Investment Council handling the many millions of dollars of the state funds, I would like to know if that passed. Can someone answer that question? Absolutely not. Thank you.

PRESIDENT: Was that your answer Senator?

SENATOR MILLS: That is right.

PRESIDENT: Senator Murphy.
